## COMPROD COMMUNICATIONS LTD

High Quality • Dependable Performance • Excellent Technical Support

### Our Mission

Comprod Communications Ltd, is a leading RF Antenna and Filter manufacturer providing some of the most innovative and customized products on the market. We are dedicated to our customers, providing Top Notch quality products, backed by the best Customer Service and Technical Support Departments in our industry.

### Our Vision

Our vision is to be the world's most dynamic RF Telecommunications Company, a Leader in Antenna and Filter Design, essential to the Evolution of our Industry. To have our Antennas on Every Tower and to have our Filters at Every Site, Globally.

Comprod Communications has become an industry leader in the design, manufacturing, and assembly of RF Antennas, Filters, and In-Building Systems World Wide. Specializing in the customized approach to development and integration, Comprod is now one of the most innovative companies in our field, designing a vast array of products, continually redesigning how we can satisfy our customers continually changing needs. Comprod brings you an extensive range of innovative products drawn from our wealth of superior engineering, design, extended manufacturing experience and rigorous quality control. Certified under ISO 9001:2000 quality assurance standards. We operate in the 27MHz to 3.5GHz frequency range, customizing and manufacturing durable and quality driven base station antennas and filtering devices:

#### Filters

- Tx/Rx Combiners (VHF, UHF, 700/800/900MHz)
- Multicouplers (VHF, UHF, 700/800/900MHz)
- Duplexers (VHF, UHF, 700/800/900MHz)
- Couplers/Dividers/Splitters
- Mobile Duplexers
- Isolators
- Receiver Multicoupler Systems

---

#### Antennas

- In-Building Antennas (Dual/Tri/Quad Band)
- Base Station Antennas (Heavy Duty Versions Available)
- Mobile Antennas
- Transit Antennas
- AM/FM Disguise Antennas (Covert Applications)

---

At Comprod, we believe in a long term relationship with our customers. We are continually working with our customers to increase their market shares, co-develop new markets, open the communication channels between our company and theirs, as well as being extremely flexible to meet our customers needs and demands.

Comprod is dedicated to providing a long list of added value services, such as R&D, consulting, system advice and design, customized products to meet our customers exact needs, and a premium customer service program. We have the ability to manufacture custom products or modify existing products in order to meet our clients exact needs. This flexibility has allowed us to become an extension of the companies we work with, to become a business-to-business partner, rather than just a standard supplier.

Comprod's R&D and technical team can fulfill your telecommunication needs and requirements in a vast array of applications. Products are developed with our own standards of excellence and manufactured with state-of-the-art machinery and equipment for customers who appreciate superior performance.

Comprod is committed to excellence to its clients, employees, and suppliers through:

- Design, Manufacture, & Produce Innovative and Quality Products
- Deliver Products, Systems and Services which fully meet customers' needs and expectations at a cost effective price
- Provide Outstanding Customer Service and Technical Support
- Maintain a Highly Skilled and Dedicated Workforce

For more information on Comprod Communications X-Pass, Multicouplers, Duplexers, Pass-Reject, BandPass, or Notch filters, please do not hesitate to contact our team of Technical Support at **1.800.603.1454** or **1.450.641.1454**.
